Subject: RE: Eurofins Sample results for yesterday's river sampling by EPA?

Hi Eric,

If you can, please list 8260D water analysis specifically for methyl methacrylate, ethyl acrylate, butyl acrylate and styrene

Thanks again!

Noah

What analyses should I list on the COC for the product sample? Thanks

Hi Kelley,

Understood. The sample is currently double bagged and stored in a box so should be secure but if Eric has any concerns with packaging we will address it immediately.

Regards,
Connor

Thanks Noah!

Connor, Eric Watt (copied) will be contacting you to arrange to meet to pick up the samples.

Please make sure the product samples are well packages so we don't have to worry about any cross contamination during transit.

Thanks - Kelley

Hi Kelley,
Sorry for the delay in getting you Connor's contact information for chain of custody forms. I think he will be there when your colleague is ready to go and pick up the sample. In any case Connor is on copy here.
